

500 W dual-row / 10-fold portable solar panel

PVShop catalogue reference: PVS-SP500-FOLD

Manufacturer reference specifications

Transcribed from the supplier-provided 500 W, dual-row, 10-fold reference sheet. These figures have not been independently tested. The exact EU part number and purchasable electrical configuration are not confirmed.

Rated peak power	500 W
Open-circuit voltage (paired references)	23.76 V / 47 V
Operating voltage (paired references)	19.8 V / 39.6 V
Short-circuit current (paired references)	27.7 A / 13.8 A
Peak / operating current (paired references)	25.2 A / 12.6 A
Unfolded dimensions	233 x 103 x 3 cm
Folded dimensions	52 x 46 x 9 cm
Net weight	11.6 kg
Gross weight	13.6 kg
Outer carton dimensions	56 x 11 x 52 cm

Paired electrical values and compatibility

The source lists two paired sets of voltage/current figures without identifying orderable variants or wiring arrangements. Do not interpret them as selectable outputs or user-switchable configurations. Confirm the exact configuration, connectors, polarity and cold-weather open-circuit voltage before matching a controller or power station.

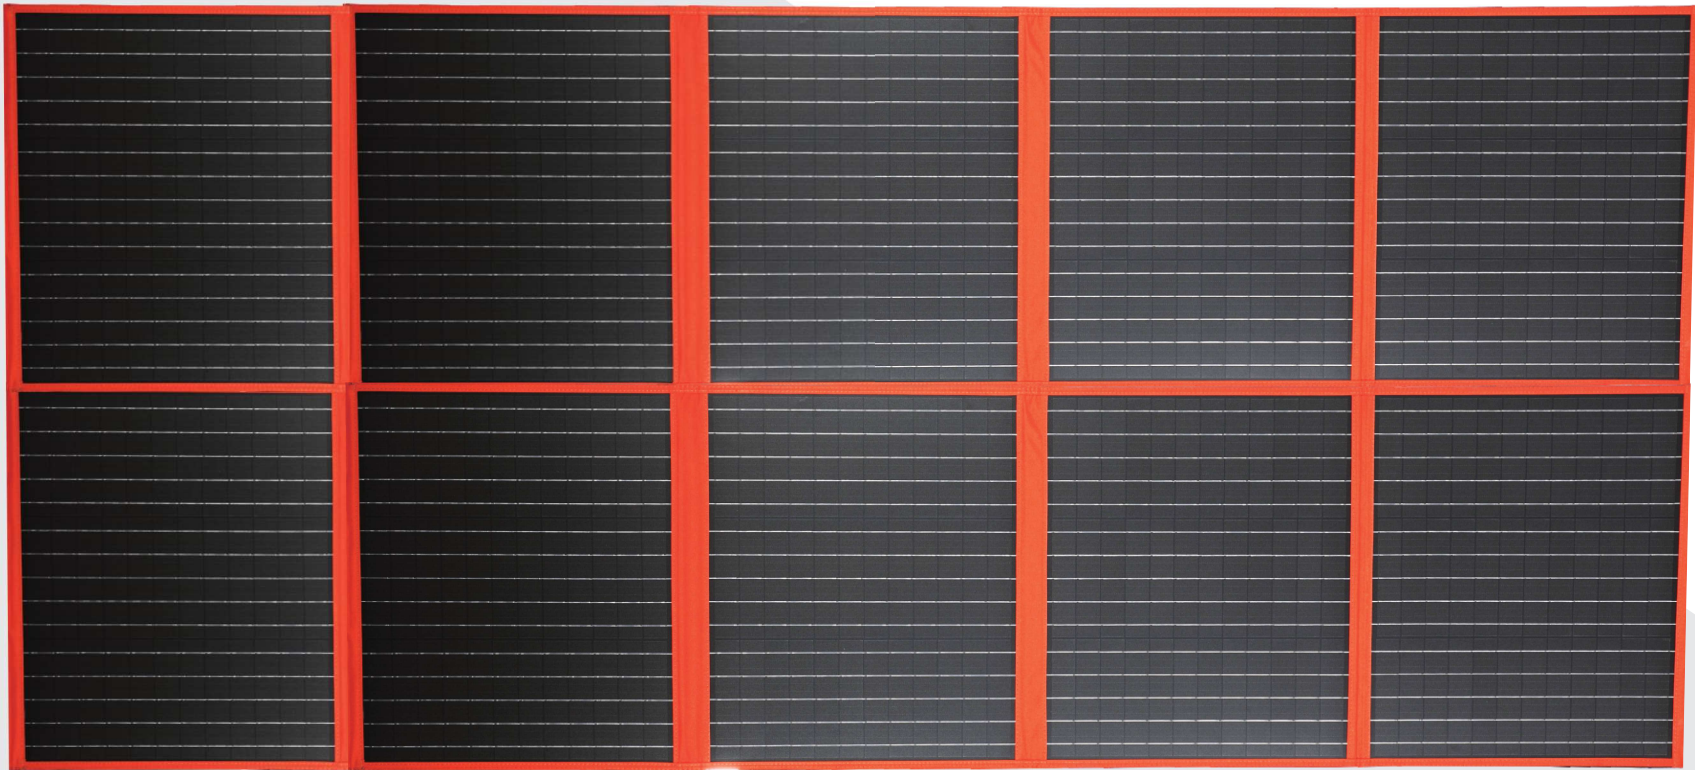

Availability and scope

Published out of stock with no price while the EU SKU, supplier cost and delivery availability are unconfirmed. Not included in any PC or battery pack. No IP rating, efficiency, certification, temperature coefficient, test conditions, graph or test report is supplied; none is invented.

Original manufacturer reference

The next page is the original 500 W sheet, unchanged, retaining its original model description and all table values. The complete original PDF, also covering the 400 W reference, is available separately on the product page.
